UPD Challenge: Same Image, Transplanted Question

Image A
(being evaluated)

Answerable

```
Q: What is the abnormality in the left
lung?

A: The abnormality in the left lung is
a pneumothorax, which is the
presence of air or gas in the
pleural space, the area between the
lung and the chest wall. This can
cause the lung to collapse, leading
to difficulty breathing and chest
pain.
```

Unanswerable (UPD)

```
Q: Are the infiltrates more prominent
in any specific area of the lungs?

A: I cannot answer.
